student-centred  
pedagogy**

**Affordances for  
online activities to  
facilitate inclusive  
student-centred  
pedagogy**

**COALITION I-SCP  
Competence  
Framework**

## **Vision of the COALITION I-SCP Competence Framework**

The COALITION I-SCP Competence Framework aims to provide a structured and comprehensive guide outlining the knowledge, skills, and attributes that university teachers need to effectively teach in higher education. This framework helps to establish expectations for teaching faculty, ensuring they are equipped to meet the diverse needs of their students and foster inclusive learning environments. Additionally, the COALITION framework aids in promoting professional growth and continuous faculty development, ultimately enhancing the overall quality of higher education teaching.
